

9026 S3 GRIPPERS DEALER SAFETY BOOTS

The Grippers safety boot is equipped with a steel toe and a mid-weight construction, along with removable insoles and an elastic gusset for convenient fitting. Made from waxed leather uppers, it also includes an elasticated ankle for added support and flexibility. The boot features a full-length Eva foam insole for comfort, as well as a breathable nylon mesh lining that wicks away moisture.

Conforms to EN ISO 20345:2011 S3 SRC.
